## PROFILE

I'm Soloviov Ivan a programmer without commercial experience, but with a great technical outlook. I write mostly in C# I often use ASP.Net Core to create web applications (watch my github) for this I use MySQL and a EntityFramework.

I was one of the founders of the company SavePC - repair and maintenance of computer systems. Then worked in a small company Helper where i was a system administrator.

💡 You can [download](#) this summary

## EXPERIENCE

2021  
MY WEBSITE

### ASP.NET CORE MVC

This is my home project where I developed a site with an admin panel and dynamic pages. It was designed to create a personal website. It was also deployed on Google Cloud, but unfortunately I ran out of free server usage 😞. My site is currently running on Jekyll.

2021  
WEB CALCULATOR

### ASP.NET CORE

The project is designed for learning purposes. The "Strategy" pattern was used in the development.

2020  
SAVEPC WEB

### ASP.NET CORE MVC

Web application for service center automation. This site was developed during training, for my own business of maintenance of computer equipment.

2021  
MYSMALLGAME

### C#

Just a console mini game 👍😊
