PROFILE

I`m Soloviov Ivan a programmer without commercial experience, but with a great technical outlook. I write mostly in C# I often use ASP.Net Core to create web applications (watch my github) for this I use MySQL and a EntityFramework.
I was one of the founders of the company SavePC - repair and maintenance of computer systems. Then worked in a small company Helper where i was a system administrator.
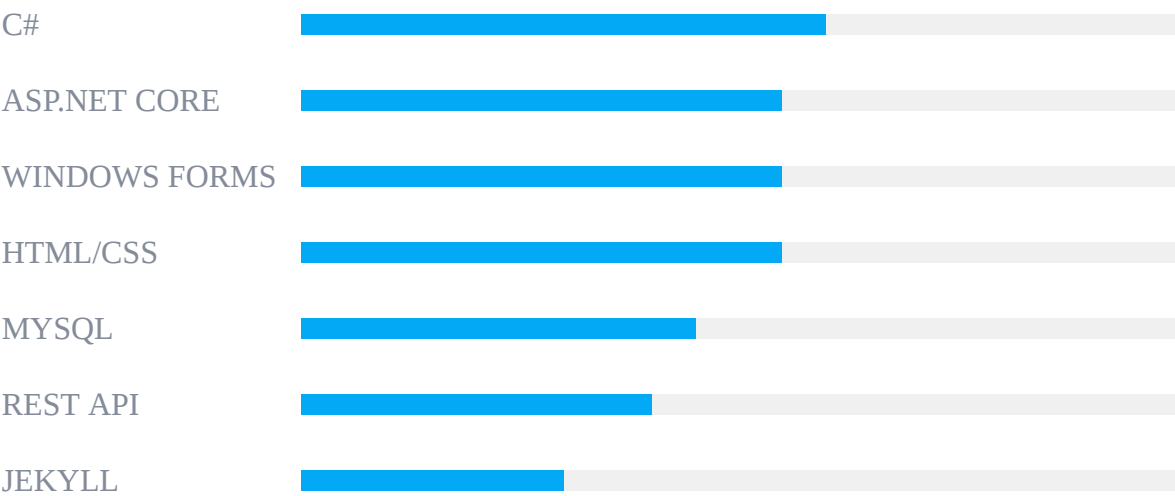

EXPERIENCE

2022
EPAM UNIVERSITY

.NET QA AUTOMATION 🔥
In this course, I improved my knowledge of .Net and SCRUM, learned about types of manual testing and got acquainted with Selenium.

PET PROJECTS

2021
MY WEBSITE

ASP.NET CORE MVC
This is my home project where I developed a site with an admin panel and dynamic pages. It was designed to create a personal website. It was also deployed on Google Cloud.

2021
WEB CALCULATOR

ASP.NET CORE
The project is designed for learning purposes. The "Strategy" pattern was used in the development.

2020
SAVEPC WEB

ASP.NET CORE MVC
Web application for service center automation. This site was developed during training, for my own business of maintenance of computer equipment.

PROFESSIONAL SKILLS

C#

ASP.NET CORE
