PROFILE

I`m Soloviov Ivan a programmer without commercial experience, but with a great technical outlook. I write mostly in C# I often use ASP.Net Core to create web applications (watch my github) for this I use MySQL and a EntityFramework.
I was one of the founders of the company SavePC - repair and maintenance of computer systems. Then worked in a small company Helper where he wos a system administrator.

💡 **You can find complete information about me on my site. Also there I often publish my articles, I will be glad to see you there!** www.soloviov.fun

EXPERIENCE

2021
MY WEBSITE

ASP.NET CORE MVC
This is my home project where I developed a site with an admin panel and dynamic pages. It was designed to create a personal website. It was also deployed on Google Cloud, but unfortunately I ran out of free server usage😔. My site is currently running on Jekyll.

2021
WEB CALCULATOR

ASP.NET CORE
The project is designed for learning purposes. The "Strategy" pattern was used in the development.

2021
CONSOLE GAME

C#
Just a console mini game👍

PROFESSIONAL SKILLS

.NET
